This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

BIBLIOGRAPHY OF WORCESTERSHIRE.

PART III. (b) WORKS RELATING TO THE BOTANY OF WORCESTERSHIRE.

Compiled by JOHN HUMPHREYS, F.L.S.

1549. Bale, Johan. Leland's Itinerary.

1650. How, William, M.D. Phytologia Britannica.

1666. Merrett, Christopher. Merrett's Pinax.
London: Cave Pulleyn.

1670. Ray, John. Catalogus Plantarum Angliæ.
1st edition, p. 90.
2nd edition, 1677.

1678. Pitt, Edmund. Letter contributed to "Philosophical Transactions," No. 139, p. 978, on the Sorb Tree of Wyre Forest.

1690. Ray, John. Synopsis Methodica Stirpium Britannicarum.
1st edition, p. 75.
2nd edition, 1696.
3rd edition, edited by Dr. J. J. Dillenius, 1724.

1695. Gibson, Edward. Translation of Camden's Britannia.
1st edition, p. 528.
2nd edition, 1722.

1710-12. Hearne, Thomas. Leland's Itinerary.
1st edition, 9 vols.
2nd edition. Vol. VI. p. 71, fol. 80, 1744-5.

1729. Cox, Rev. Thomas. Magna Britannia, or Topographical, Historical, Ecclesiastical, and Natural History of Worcestershire.

Botanical Notes, p. 273.
Printed by Eliz. Nutt in the Savoy, London.

1732. Dillenius, Dr. J. J. Hortus Elthamensis.

Campanula patula (Tab. 58, fol. 69).

1776. Withering, William. Botanical Arrangement of British Plants.

1st edition. See Appendix, p. 783.
2nd edition. Vols. I. and II. edited by Dr. Jonathan Stokes, 1787.
Vol. III. Part II. pp. 45, 46, 55, 126, 127. 1792.
3rd edition, 1796.

1778. Hudson, William. Flora Anglica.

2nd edition, pp. 19, 20, 95, 96.

1781. Nash, Treadway. Collections for the History of Worcestershire.

Vol. I. List of Plants, Introduction, p. lxxxix.; Sorb Tree, pp. 10, 11.

1789. Gough, Richard. New Edition of Camden's Britannia.

3 vols. folio.
Vol. II. p. 374.

1790. Smith, Sir J. E. English Botany. Vol. I. Figures by J. Sowerby, descriptions by Sir J. E. Smith.

1795. Pulteney, Richard. Catalogue of Leicestershire Plants contained in Vol. I. of the History and Antiquities of the County of Leicester, by John Nichols.

Reference to discovery of *Campanula patula* near Worcester, p. 179.

1799. Nash, Treadway. Collections for the History of Worcestershire.

2nd edition, with additions. Printed for John White, Horace's Head, Fleet Street.

Supplement, p. 96. List of plants observed in Worcestershire, by Dr. Sheward.

1799. Smith, Sir J. E. English Botany. Description of *Verbascum virgatum* in Worcestershire.

Vol. VIII. No. 550.

1801. Withering, William. Botanical Arrangement of British Plants.

4th edition, edited by William Withering, jun.
pp. 293, 325, 361, 394, 443, 568, 671, 747.

1802. Smith, Sir J. E. English Botany. Discovery of *Festuca Calamaria* in Worcestershire.

Vol. XIV. No. 1005.

1803-05. Carpenter, J. Agriculture of Bromsgrove.

Vols. I. and II.

1805. Turner, Dawson, and Dillwyn, Lewis Weston. Botanist's Guide through England and Wales.

Vol. II. pp. 656—662.
London : Phillips and Fardon.

1806. Smith, Sir J. E. English Botany. Record of *Scirpus Romanus* in Worcestershire.

Vol. XXIII. No. 1612.

1810. Pitt, William. General View of the Agriculture of the County of Worcester.

List of Remarkable Vegetable Productions, p. 317.

1812. Withering, William, M.D. A Systematic Arrangement of British Plants, with an easy Introduction to the Study of Botany, corrected and enlarged by William Withering, F.L.S.

5th edition, Vols. I.—IV.
Birmingham : printed by Thomson and Wrightson.

1814. Laird, F. C. Topography of Worcestershire in "The Beauties of England and Wales," by J. Norris Brewer.

Vol. XV. Botanical Notes, pp. 322, 359, 365.

1817. Purton, Thomas. A Botanical Description of British Plants in the Midland Counties, particularly those in the neighbourhood of Alcester.

Vols. I. and II.
Stratford on Avon: J. Ward.

1818. Walford. Scientific Tourist through Great Britain.

Vol. I. List of Worcester Plants.

1821. Purton, Thomas. Appendix to Midland Flora.

Vol. III. pts. 1 and 2.
London: Longman, Hurst, Rees, Orine, and Brown.

1824. Smith, Sir J. E. English Flora.

1st edition, 8°. Vols. I. and II.

1825. Rev. Luke Booker. History of Dudley.

List of Plants growing near the Castle, p. 107.
Published at Dudley.

1825. Maund, B. Botanic Garden.

Bromsgrove. 13 volumes.

1825. Southall, Mary. A Description of Malvern. List of Plants growing at Malvern and in neighbourhood.

2nd edition, p. 215.

1825. Smith, Sir J. E. English Flora.

1st edition. Vol. III.
Vol. IV. 1828.

1828. Smith, Sir J. E. English Flora.

2nd edition. Vols. I.—IV.

1828. Ainsworth, William. A Sketch of the Physical Geography of the Malvern Hills.

Jameson's Edinburgh Philosophical Transactions for 1828, pp. 99, 100.

1828. Florence, Ambrose. Strangers' Guide to Worcester.

Catalogue of Plants, pp. 152—156.
Published by Edwin Lees.

1828. Midland Medical and Surgical Reporter. Essay on the Medical Topography of Worcester, with list of Plants growing in vicinity of Malvern; author unknown.

Vol. I. No. 1.
Published at Worcester.

1828. Walker, J. K., M.D. Some observations on the Botanical and other peculiarities of the Malvern Hills.

Midland Medical and Surgical Reporter. Vol. I. No. 2, pp. 100—105.

1828. Nash, James, M.D. Note on *Atropa Belladonna.*

Midland Medical and Surgical Reporter. Vol. I. No. 2, p. 105.

1829. Lees, Edwin. The Worcestershire Miscellany.

No. 1.

1830. Withering, William. Botanical Arrangement of British Plants.

7th edition, i.e. 4th edition, edited by author's son.
6th edition, Adam Scott, 1845.

1830. Lees, Edwin. Catalogue of Plants on the Malvern Hills.

Loudon's Magazine of Natural History, Vol. III. pp. 160, 161; and "Plants varying in colour of their flowers, &c., growing wild principally near Worcester," pp. 161, 162.

1830. Stokes, Dr. Jonathan. Botanical Commentary.

Vol. I.

1831. Stokes, Dr. Jonathan, Reference to finding of *Scandix cerefolium* in Worcestershire, 1775—1830.

Worcestershire Miscellany (Supplement).

1831. Perry, W. G. List of rarer plants of Worcestershire.

Loudon's Magazine of Natural History. Vol. IV. pp. 450—452.

1831. Lees, Edwin. On relative scarcity of certain species of Plants, and on changes in their habitats.

Loudon's Magazine of Natural History. Vol. IV. pp. 437—441.

1832. Scott, William. Stourbridge and its Vicinity. Botanical Chapter, p. 539.

1834. Hastings, Charles. Illustrations of the Natural History of Worcestershire.

Botany, pp. 84—88, 147—180.
London: Sherwood, Gilbert, and Piper.
Worcester: Lees.

1835. Baynon, Rev. W. L. Localities of rare plants in neighbourhood of Kidderminster and Bewdley, communicated to "The Ten Town's Messenger."

Published at Kidderminster.

1835. Watson, Hewett Cottrell. The New Botanist's Guide.

Containing Catalogue of Worcestershire Plants, by E. Lees.

1836. Addison, Dr. List of rarer Plants indigenous in the district of Malvern.

Transactions of the Provincial Medical and Surgical Association. Vol. IV. pp. 141—146.

1837. Streeten, R. J. N., M.D. Reference to occurrence of *Myosotis collina* near Hagley.

The Naturalist. Vol. I. p. 173.

1837. Ick, Dr. William. Remarkable Plants found growing in the vicinity of Birmingham in 1836.

The Analyst. Vol. VI. pp. 20—28.

1837. Beilby, Mary Anne. List of Moseley Plants.

The Analyst. Vol. VI. pp. 293—296.

1838. Ick, Dr. W. List of Plants from neighbourhood of Moseley and Stourbridge.

Midland Counties Herald, August 5th.

1838. Ick, Dr. W. List of remarkable Plants observed growing spontaneously in the neighbourhood of Birmingham.

Report of Philosophical Society for 1838.

1838. Luxford, George. Notes on finding of *Teesdalia nudicaulis* and *Erica Tetralix* in Worcestershire.

Magazine of Natural History. Vol. II. pp. 616, 620.

1840. Newman, Edward. History of British Ferns.

1st edition.
3rd edition, Van Voorst, 1854.

1841. Lees, Edwin. Record of *Allosorus crispus* and *Polypodium Dryopteris* on Malvern Hills, and *Asplenium viride* on bridge over the Teme.

Phytologist. Vol. I. p. 46.

1841. Lees, Edwin. Reference to *Tilia* in Worcestershire.

Phytologist. Vol. I. pp. 79, 111.

1841. Newman, Edward. Reference to the Fir Club-Moss in Worcestershire, in "A History of the British Lycopodia."

Phytologist. Vol. I. p. 82.

1842. Lees, Edwin. Botanical Looker-Out among the Wild Flowers of the Fields, Woods, and Mountains of England and Wales.

1st edition, pp. 94, 95.
2nd edition, 1851, pp. 181.

1842. Jorden, George. Notes on the genus *Tilia* in Wyre Forest, communicated to the Phytologist by W. A. Leighton.

Phytologist. Vol. I. p. 147.

1842. Bromfield, William Arnold. On the British Species of *Tilia*.

Phytologist. Vol. I. p. 169.

1842. Lees, Edwin. Paper read to the London Botanical Society on "The Flora of the Malvern Hills in the Counties of Worcester, Hereford, and Gloucester," Pt. I., Jan. 7, 1842.

Phytologist. Vol. I. p. 152.

1842. Lees, Edwin. Part II. of Paper read to London Botanical Society on the "Flora of the Malvern Hills," March 18, 1842.

Phytologist. Vol. I. pp. 206—208.

1842. Lees, Edwin. Part III. of Paper read to London Botanical Society on the "Flora of the Malvern Hills;" being a sketch of the cryptogamic vegetation indigenous to the chain, May 20.

Phytologist. Vol. I. pp. 271, 272.

1842. Reece, George. Worcestershire localities for some inland maritime plants, communicated to Phytologist by J. Evans of Worcester.

Phytologist. Vol. I. p. 331.

1842. Francis, G. W. Record of *Grammitis Ceterach* growing on Malvern Abbey.

Analysis of the British Ferns, 2nd edition, p. 20.
London: Simpkin, Marshall and Co.

1842. Freeman, Samuel. List of some of the rarer plants observed in the neighbourhood of Birmingham, 1841.

Phytologist. Vol. I. p. 261.

1843. Lees, Edwin. Botany of the Malvern Hills.

1st edition.
2nd edition, 1852.
3rd edition, 1868.

1843. Lees, Edwin. Discovery of *Lepidium Draba* near Malvern.

Phytologist. Vol. I. p. 679.

1843. Newman, Edward. List of Worcestershire Ferns.

Phytologist. Vol. I. pp. 512—514.

1843. Gibson, Samuel. Reference to the British Carex mentioned by Lees in the Botany of the Malvern Hills.

Phytologist. Vol. I. p. 715.

1844. Woodward, S. P. Notes of a Botanical Excursion in Warwickshire, Worcestershire, Wales, and Ireland, read at meeting of London Botanical Society, Nos. 17, 1843.

Phytologist. Vol. I. pp. 875, 876.

1844. Newman, Edward. History of the British Ferns.

2nd edition.

1844. Lees, Edwin. A Word on Worcestershire Botany.

Phytologist. Vol. I. pp. 969—971.

1844. Lees, Edwin. *Botrydium granulosum* at Henwick, Worcestershire.

Phytologist. Vol. I. p. 1019.

1845. New, Herbert. Catalogue of characteristic and rare Plants in the vicinity of Evesham, contributed to "A descriptive history of Evesham."

2nd edition, p. 419.
Evesham: George May.

1845. Watson, H. C. Note on a species of *Œnanthe* in Worcestershire.

Phytologist. Vol. II. pp. 13, 15.

1845. Salter, T. Bell. Reference to specimen of *Rubus radula* from Worcestershire in "Observations on the Genus Rubi."

Phytologist. Vol. II. p. 107.

1845. Lees, Edwin. Investigation of the specific distinctions of *Œnanthe pimpinelloides*, *Œ. peucedanifolia*, and *Œ. Lachenalii*, containing several Worcestershire references.

Phytologist. Vol. II. pp. 354—365.

1845. Streeten, Robert J. N., M.D. Worcestershire habitat of *Œnanthe lachenalii*.

Phytologist. Vol. II. p. 405.

1845. Harris, William. Rambles about Dudley Castle, with list of Plants growing on or near the Castle Hill.

Halesowen: W. Harris.

1847. Watson, Hewett Cottrell. Cybele Britannica, or British Plants and their geographical relations.

Vol. I. Various Worcestershire records: pp. 93, 139, 151, 189, 201, 211, 260, 279, 293, 308, 314, 320, 323, 343, 364, 369, 399, 430, 439, 441, 442, 444.
London: Longman and Co., Paternoster Row.

1847—1906. Transactions of the Worcestershire Naturalists Field Club.

Worcester: Ebenezer Baylis and Son.

1847. Westcombe, T. Notice of Worcestershire *Carex* exhibited at meeting of London Botanical Society, Jan., 1847.

Phytologist. Vol. II. pp. 751, 759.

1847. Lees, Edwin. Remarks on the radiant-flowered variety of *Centaurea nigra* or *C. nigrescens* from Great Malvern.

Phytologist. Vol. II. pp. 995—998.

1848. Lees, Edwin. Note on specimen of *Rubus* in Worcestershire.

Phytologist. Vol. III. pp. 362, 400.

1848. Lees, Edwin. Account of an excursion into Wyre Forest under the guidance of Mr. G. Jorden.

Phytologist. Vol. III. pp. 54, 55.

1848. Reece, George. On the finding of *Ornithogalum umbellatum* near Worcester.

Phytologist. Vol. III. p. 356.

1849. Watson, H. C. Cybele Britannica.

Vol. II. Various Worcestershire records: pp. 18, 115, 139, 150, 152, 157, 159, 160, 189, 191, 208, 247, 284, 304, 318, 333, 347, 357, 368, 418, 431, 447, 452, 458, 476.

1849. Buckman, James, F.G.S. The Ancient Straits of Malvern, with list of marine Plants growing in the valley of the Severn.

pp. 13—15.
Longmans. 8°.

1849—1851. Henfrey, Arthur. Botanical Gazette.

1849. Lees, Edwin. On the disappearance of Plants from localities once assigned to them.

Phytologist. Vol. III. pp. 510—517.

1849. Buckman, James, F.G.S. List of Marine Plants growing in the valley of the Severn.

Phytologist. Vol. III. pp. 547—549.

1850. Roby, John. Remarks on a *Narcissus* found near Malvern.

Phytologist. Vol. III. p. 921.

1850. Lees, Edwin. On the appearance of *Atriplex hortensis* near Worcester.

Phytologist. Vol. III. p. 1050.

1851. Reece, George. Worcestershire habitat for *Villarsia nymphæoides.*

Phytologist. Vol. IV. p. 5.

1851. Lees, Edwin. Remarks on some Starred Plants in the new edition of the British Flora, containing several Worcestershire references.

Phytologist. Vol. IV. pp. 56—64.

1851. Lees, Edwin. Records of Observations on Plants appearing upon newly broken ground, raised embankments, &c.

Phytologist. Vol. IV. pp. 131—137.

1852. Watson, H. C. Cybele Britannica.

Vol. III. Worcestershire records: pp. 55, 71, 74, 85, 128, 150, 172, 221, 227, 257, 276, 308, 383, 405, 421, 430, 442, 469, 513.
The *Rubi* of Worcestershire, pp. 339—346.

1852. Bennett, Mrs. William. Discovery of *Dianthus deltoides* near Kidderminster, reported at meeting of Phytologist Club, Sept., 1852.

Phytologist. Vol. IV. p. 724.

1852. Newman, Edward. Exhibition of specimen of *Osmunda regalis* from near Kidderminster at meeting of Phytologist Club, Sept., 1852.

Phytologist. Vol. IV. p. 724.

1852. Westcombe, Thomas. Discovery of *Poterium muricatum* and *Filago apiculata* reported at meeting of the Phytologist Club, Sept., 1852.

Phytologist. Vol. IV. p. 724.

1853. Stanley, John. Stanley's Worcester and Malvern Guide Book.

pp. 160—171.
Worcester: printed by John Stanley, Sidbury.

1853. Cheshire, W. Discovery of *Elodea canadensis* at Evesham.

Worcestershire Chronicle, August 31st.

1853. Lees, Edwin. Notice of the 2nd edition of Botany of the Malvern Hills.

Phytologist. Vol. IV. pp. 796—802.

1853. Lees, Edwin. A descriptive list of the British *Rubi*, from the "Botany and Geology of Malvern."

Phytologist. Vol. IV. pp. 817—825.

1853. Lees, Edwin. An account of the Mosses and Lichens of the Malvern Hills, from the "Botany and Geology of Malvern."

Phytologist. Vol. IV. pp. 863—865.

1853. Lees, Edwin. Supplementary account of the British *Rubi*, with remarks on their physiology and distribution.

Phytologist. Vol. IV. pp. 917—932.

1853. Reynolds. Reference to finding of *Asplenium viride* at Ham Bridge, Worcestershire, at meeting of Phytological Club, April, 185 3

Phytologist. Vol. IV. p. 947.

1853. Thompson, Rev. J. H. Reference to discovery of species of *Lepidium* in Worcestershire, Oct., 1852.

Phytologist. Vol. IV. p. 970.

1853. Baxter, Thomas. *Elodea canadensis* near Worcester.

Phytologist. Vol. IV. p. 1101.

1853. Account of meeting of Worcestershire Naturalists' Field Club in Wyre Forest, Aug. 1853.

Phytologist. Vol. IV. pp. 1101—1104.

1853. Account of meeting of Malvern Naturalists' Club at Knightsford.

Phytologist. Vol. IV. pp. 1136—1139.

1853. Jorden, George. On the occurrence of *Thymus Serpyllum* and *T. Chamædrys* at Bewdley.

Phytologist. Vol. IV. p. 1142.

1853. Gissing, T. W. Note on Bifid and Trifid Ferns gathered in Worcestershire.

Phytologist. Vol. IV. p. 1144.

1853—1870. Transactions of the Malvern Naturalists' Field Club.

Published by Holl and Darke, Herald Office, Worcester.

Contents :—
